# HENRY LU 卢鸿璋

## Business Operations · Commercial Performance · Process Improvement

Wan Chai, Hong Kong · IANG work permission · No employer sponsorship required
+852 9134 1868 · luhenry620@gmail.com · hongzhangxiu.xyz

Operations professional with 12 years at SAIC-GM-Wuling across headquarters support, regional dealers and direct retail. Turns operating data into **clear targets, frontline actions and cross-functional execution**; adds hands-on AI prototyping and an MSc in Applied AI.

## SELECTED OPERATING RESULTS

### Store performance: cost, people and revenue together

Foshan direct retail · 2023–2024

Led a loss-making store through staffing and process changes, tighter inventory decisions and sales/after-sales coordination. Worked with finance on cost pressure and local revenue levers.

Losses narrowed to **near break-even by July 2024**. March 2024 sales reached **117% of target** (17 vehicles).

### Dealer improvement through local execution

Xingtai dealer · 2020

Moved one dealer from the bottom of its region to the **top three in three months**, measured by actual retail-sales target attainment.

Co-designed local activities with the dealer, coordinated jointly funded resources, and tracked activity-to-visit-to-sale conversion.

### Operating reports and management routines

HQ direct-retail support · 2021

Built reporting and exception-tracking routines using the existing CRM: store data-entry requirements, data collection, daily/weekly reports and abnormal-result records.

Supported departmental OKR alignment, rolling sales plans and management review materials across Liuzhou, Nanning and Zhengzhou.

## RECENT ROLE

**Intelligent Mobile Robotics — New-Business Exploration** 2024.08–2025.03

- Translated technical prototypes into customer scenarios, product materials and tailored proposals; identified three high-value prospective clients and mapped 20+ target companies.
- Worked with finance on materials, R&D, software and subcontracting costs to support quotation and commercial-feasibility discussions.

SAIC-GM-Wuling employer history continues on page 2.

## CAREER EXPERIENCE

**General Manager, Foshan Direct-Retail Store** 2023.09–2024.08

- Accountable for day-to-day store operations, staffing, sales/after-sales coordination and working with finance on store performance; key outcomes are on page 1.

**National Direct-Retail Operations & Talent Development** 2022.01–2023.09

- Led clarification of department and role responsibilities. Worked with benchmark stores, HR and finance to develop staffing/productivity standards and management/professional career paths.
- Organised store-leader change discussions and four partner-level training programmes; managed course supply, learning schedules and assessment tracking on an existing group platform.

**HQ Operating Support / Suzhou Store Establishment** 2021

- HQ support, Jan–May: reporting and OKR routines described on page 1. Around Jun–Dec: established Suzhou delivery/operations, pop-up and after-sales touchpoints over four to five months.

**Product Engineering → User Operations → Regional Dealer Operations** 2014–2020

- Owned DC/DC product-engineering work and supplier technical coordination in 2014–2016, including thermal/structural trade-offs, manufacturing reviews and vehicle validation.
- Collected **15,000+ customer-feedback items over eight months**, informing 3,000+ product-improvement points.
- Managed seven dealers in Fujian/Zhejiang in 2019H2–2020H1; subsequently managed seven in Hebei. Supported campaigns, local resources and sales-conversion reviews.

## APPLIED AI AS AN OPERATING TOOL

Independently built an offline proofreading MVP using local inference, retrieval and human review. Completed a vehicle-review NLP study with five-seed checks and a 47-sample blind review. Can translate an operating problem into a testable prototype.

## WORKING METHODS & TOOLS

Operating reports and KPI reviews · Sales-funnel analysis · Store profit/cost reviews · Role and staffing standards · Training coordination · Excel · PowerPoint · Python

## EDUCATION & LANGUAGES

**Hong Kong Chu Hai College** · MSc, Applied Artificial Intelligence · 2026

**Guangxi University** · Bachelor's degree, Transportation · 2013

Vehicle Engineering focus

**Mandarin** (native): Event hosting, industry report writing and departmental briefings.
**English**: Workplace reading and writing, everyday conversation and prepared presentations in meetings.
**Cantonese**: Conversational in everyday settings, with listening and speaking skills continuing to improve.
