现居地址：香港湾仔

hongzhang99@163.com

LinkedIn 个人主页链接：www.linkedin.com/in/卢鸿璋-04458b388

工作许可：IANG 签证--有效期至 2028 年 7 月

求职目标：业务营运管理 / 数字化转型 / AI 落地应用 · 香港

个人优势 / 自我评价

12 年新能源汽车全链路操盘经验（研发→用户运营→销售→直营门店总经理），加上 MSc Applied AI 全链路动手能力（数据获取、清洗→模型训练→消融实验→策略输出）。能跟技术团队聊架构细节，也能跟管理层讲战略、业务闭环。核心差异：不是「懂业务 + 会用 AI 工具」，而是「业务出身 + 能自己建模」。

AI 项目经历 / AI Project

汽车评论 ABSA 与智能营销策略系统 | 香港珠海学院 · 硕士毕设 | 2025.10 - 2026.05

——针对新能源小样本数据洞察难题，开发低成本智能分析系统，端到端覆盖数据采集→推理→策略输出

· **技术方案**：基于 RoBERTa-wwm-ext 构建双任务四头架构（方面抽取 + 情感分类 + 营销洞察多标签 + 槽位填充），处理 8 类产品标签与 6 类营销洞察标签的 BIO 标注

· **核心成果**：F1 从基线 0.21 提升至 0.6705 (3.2×)，消融实验 ×5 种种子验证稳定性，独立测试集 47 条盲评

· **商业价值**：输出品牌对比分析（宝骏 vs 五菱），识别口碑拐点与营销活动因果关联，验证小样本场景 AI 可落地性

技术栈 / Tech Stack

Python / PyTorch · RoBERTa / Transformers · 消融实验 / 多种子验证 · 数据管线 (2,226→859→427)

多模型编排 (Claude / Kimi / GLM / GPT-5.5) · Claud Code / Git / Terminal · SQL / 数据清洗

工作经历 上汽通用五菱汽车股份有限公司 (服务单公司 12 年，已离职)

智能机器人营销项目 | 新业务探索 | 2024.08 - 2025.03

- **产品市场定位**：主导智能移动机器人产品手册策划与开发，明确产品核心卖点与市场定位。
- **高价值客户开发**：独立开发 3 家高价值潜在客户，定制“一客一案”营销解决方案。
- **市场线索开拓**：主动开拓并初步摸排 20 余家线索企业，从 0 到 1 搭建 B2B 销售管道与 SOP 框架。

佛山直营店总经理 | 扭亏为盈与团队重建 | 2023.09 - 2024.08

- **危机逆转**：接管动荡期亏损门店，13→7 人精简（缩减 46%）实现零劳务纠纷过渡，第 3 个月扭亏为盈。
- **人效突破**：重建激励机制与运营流程，人效提升 85%，实销峰值 62 台/月，目标完成率 117%居体系前

列。

- **盈利改善**：优化库存至直营体系最优，开发保险返点与本地商业联盟，售后产值持续超额达成。

全国直营体系运营与人才发展负责人（组织赋能方向） | 2022.01 – 2023.09

- **规模化组织建设**：协同 HR 与业务线，2 个月内完成直营团队 300→650+ 人规模化搭建，保障跨区域扩张期组织平稳过渡。
- **薪酬改革驱动业绩**：优化销售岗位薪酬与晋升机制，设计「管理+专业」双通道，推动 2 名储备合伙人及 6 名经理成功晋升，配套激励方案落地后一线业务转化效率显著提升。
- **培训体系从 0 到 1 搭建**：建立直营体系慕课平台及内训师体系，主导 4 次“合伙人”级大型培训，构建常态化业务学习与分享机制。
- **战略运营支持**：统筹百人级年会、团拜会等大型活动，主导撰写行业级与集团级分享报告，提升组织影响力，支持核心管理层决策与组织文化落地。

苏州直营店储备合伙人 | 从 0 到 1 搭建团队与门店 | 2021.01 – 2021.12

- **快速建店与开业**：2 个月内完成 3 类门店选址建店开业（商超 SHOP 店 + 园区 LING HOUSE + LING LAB）。
- **高效团队组建**：组建并管理 36 人多功能团队，建立标准化管理制度与工作流程。
- **跨界资源整合**：通过线上、线下一体化营销，连续 3 个月超额完成实销目标；与高新区文旅局签订战略合作协议。

技术研发与用户运营 | 高压工程师 → 用户运营 → 新零售 | (2014–2020)

- **新能源用户中心 (2016–2020)**：8 个月大规模用户活动收集 15,000+ 条反馈，沉淀 3,000+ 产品提升点；12 月单城实销 6,000 台（≈¥2.4 亿 GMV）；将「柳州模式」复制至山东 5 城
- **高压工程师 (2014–2016)**：3 年电机系统与 DC/DC 变换器设计开发，获中级工程师认证、1 项注册专利、参与 5 项行业标准制定

🎓 教育背景

MSc Applied Artificial Intelligence（在读） | 香港珠海学院 | 2025.09 – 2026.06

- **核心课程**：人工智能、机器学习、AI 数学、人工智能编程
- **研究方向**：AI 在业务运营、用户画像分析、市场策略预测等场景的落地应用

交通运输（车辆工程）本科 | 广西大学 (211/双一流) | 2009.09 – 2013.06

🌿 相关技能与认证

- 中级工程师认证 · 国家二级计算机 · 注册专利 1 项 · 参与 5 项新能源行业标准制定
- **语言**：普通话（二级甲等） | 英语（工作读写、基础商务） | 粤语（基础，可持续学习）。

IANG Visa Holder (Valid until Jul 2028 | No Sponsorship Required)

Job Target: Business Operations Management / Digital Transformation / AI Implementation · Hong Kong

Personal Strengths / Self-Assessment

12 years of end-to-end experience across the NEV value chain (R&D → User Operations → Sales → Direct-Retail General Manager), combined with full-stack MSc Applied AI capabilities (data acquisition → cleaning → model training → ablation experiments → strategy output). Able to discuss architecture details with technical teams and present strategic business cases to management. Core differentiator: not "business-savvy + AI tool user", but "business-native + capable of building models independently".

AI Project Experience

Automotive Review ABSA & Intelligent Marketing Strategy System | Hong Kong Chu Hai College · Master's Thesis | Oct 2025 – May 2026

Technical Solution: Built a dual-task four-head architecture based on RoBERTa-wwm-ext (aspect extraction + sentiment classification + multi-label marketing insights + slot filling), processing BIO-tagged data across 8 product categories and 6 marketing insight categories.

Core Results: Improved F1 from baseline 0.21 to 0.6705 (3.2× improvement). Validated model stability via 5-seed ablation studies. Blind evaluation on an independent test set of 47 samples.

Business Value: Delivered brand benchmarking analysis (Baojun vs. Wuling), identified reputation inflection points and causal links to marketing campaigns, validating AI feasibility in small-sample scenarios.

Tech Stack

Python / PyTorch · RoBERTa / Transformers · Ablation Studies / Multi-Seed Validation · Data Pipeline (2,226 → 859 → 427)

Multi-Model Orchestration (Claude / Kimi / GLM / GPT-5.5) · Claude Code / Git / Terminal · SQL / Data Cleaning

Work Experience SAIC-GM-Wuling Automobile Co., Ltd. (12-year tenure)

(Leading NEV Manufacturer, 20,000+ Employees)

Intelligent Robotics Marketing Project | New Business Development | Aug 2024 – Mar 2025

- **Product Market Positioning:** Led the planning and development of intelligent mobile robot product brochures, defining core selling points and market positioning.
- **High-Value Client Acquisition:** Independently secured **3 high-value** prospective clients, designing bespoke "one-client-one-solution" deployment strategies.
- **Market Pipeline Development:** Proactively developed and assessed **20+** prospect companies, establishing a B2B sales pipeline and foundational SOP framework from scratch.

Foshan Direct-Retail Store General Manager | Turnaround & Team Rebuilding | Sep 2023 – Aug 2024

- **Crisis Reversal:** Took over a store in turmoil during a transitional period. Reduced headcount from 13 to 7 (46% reduction) through compliant measures, achieving zero labour disputes. Turned profitable by Month 3.

- **Productivity Breakthrough:** Restructured incentive mechanisms and operational processes, boosting sales per employee by **85%**. Peaked at **62 units/month** (117% target achievement, top-tier nationwide).
- **Profitability Improvement:** Optimised inventory structure to network-best levels. Developed local business alliances and insurance rebate channels. Consistently exceeded after-sales revenue targets.

Head of Nationwide Direct-Retail Operations & Talent Development (Organisational Enablement) | Jan 2022 – Sep 2023

- **Scalable Organisational Build-Out:** Collaborated with HR and business lines to scale the direct-store workforce from **300 to 650+** within 2 months, ensuring smooth onboarding and operational stability during cross-regional expansion.
- **Compensation Reform Driving Performance:** Optimised sales compensation and promotion mechanisms. Designed a dual-track (Management + Professional) progression framework. Facilitated the promotion of **2 partner-designates** and **6 managers**. Frontline conversion efficiency improved significantly after incentive rollout.
- **Training Ecosystem (0-to-1):** Built the direct-store e-learning platform and internal trainer certification system. Led **4 partner-level** large-scale training programmes, establishing a regularised business learning and sharing mechanism.
- **Strategic Operations Support:** Orchestrated hundred-person scale annual conferences and corporate receptions. Authored industry-level and group-level operational review reports, directly supporting executive decision-making and organisational culture.

Suzhou Direct-Retail Store | Partner-Designate & 0-to-1 Team/Store Setup | Jan 2021 – Dec 2021

- **Rapid Store Launch:** Completed site selection, construction, and launch of 3 distinct retail formats (Shopping Mall POP-UP Store + LING HOUSE Park Store + LING LAB) within **2 months**.
- **Efficient Team Building:** Recruited and managed a **36-person** cross-functional team, establishing standardised management protocols and workflow SOPs.
- **Cross-Sector Resource Integration:** Drove integrated online-offline marketing campaigns, exceeding sales targets for **3 consecutive months**. Secured a strategic partnership with the local Culture & Tourism Bureau.

Technical R&D & User Operations | High-Voltage Engineer → User Operations → New Retail | 2014 – 2020

New Energy User Centre (2016 – 2020):

- Led an 8-month large-scale user engagement campaign, collecting **15,000+** feedback entries and distilling **3,000+** actionable product improvement points for R&D and quality teams.
- Coordinated end-to-end delivery operations in December, setting a single-city monthly sales record of **6,000 units** (approx. RMB 240M GMV).
- Successfully replicated the validated "Liuzhou Model" to **5 cities** in Shandong, laying the market foundation for subsequent blockbuster EV launches.

High-Voltage Engineer (2014 – 2016):

- 3 years of motor system and DC/DC converter design development and quality improvement.
- Awarded **Intermediate Engineer** certification, holds **1** registered patent, contributed to the formulation of 5 new energy industry standards.

Education

MSc Applied Artificial Intelligence (In Progress) | Hong Kong Chu Hai College | Sep 2025 – Jun 2026

- **Core Courses:** Artificial Intelligence, Machine Learning, Mathematics for AI, AI Programming
- **Research Focus:** AI implementation in business operations, user profiling analysis, market strategy prediction

B.Eng. Transportation (Vehicle Engineering) | Guangxi University (Project 211 / Double First-Class) | Sep 2009 – Jun 2013

Skills and Certifications

- **Professional:** Intermediate Engineer Certification · National Computer Rank Examination (Level 2) · 1 Registered Patent · Co-author of 5 NEV Industry Standards
- **Languages:** Mandarin (Native, Level 2-A) · English (Working reading/writing, basic business communication) · Cantonese (Basic, actively improving for HK workplace)
